NOTES

The Register of Naval Reserve officers contains the following lists by dates of commission:

(1) Officers of the Volunteer Reserve (General Service).
(2) Officers of the Volunteer Reserve (Special Service).
(3) Officers of the Merchant Marine Reserve.
(4) Officers of the Fleet Reserve.

It also contains alphabetical lists as follows:

(1) Aviation cadets.
(2) Midshipmen, Volunteer Reserve.
(3) Cadets, Merchant Marine Reserve.
(4) Honorary retired list.

Officers whose status was changed on July 1, 1941, are shown in this Register in their new status.

Errors or omissions should be reported immediately to the Bureau of Navigation by the officer concerned.

The service for pay purposes as shown in this Register is computed as of January 1, 1941.

The date of September 8, 1939, on which the initial proclamation of a national emergency was made by Executive order, shall be used as the date of the declaration of a national emergency in computing precedence as provided in article H–1504, Bureau of Navigation Manual.

The following regulations approved by the Secretary of the Navy concerning the precedence of Naval Reserve officers are quoted:

Bureau of Navigation Manual

"H–1501. *Precedence, line and staff.*—Line officers of the Naval Reserve take precedence with line officers of the Regular Navy, and staff officers with staff officers of the Regular Navy of the same corps.

"H–1502. *Precedence of officers on inactive duty.*—Except while performing active duty, other than training duty, commissioned and warrant officers of the Naval Reserve of the same rank or grade will take precedence among themselves according to date of commission or warrant; and with respect to officers of the Regular Navy next after the junior of their own rank or grade. Officers of the same date of commission or warrant shall take precedence according to the order in which their names appear on the official Naval Reserve Register as kept in the Navy Department.

"H–1503. *Precedence of officers on active duty during peacetime.*—During peacetime, each officer of the Naval Reserve who reports for active duty other than training duty, on or after July 1, 1938, shall take precedence next after that officer of the Regular Navy of the same rank or grade whose length of service in such rank or grade on the date the active duty began is one-half or the nearest one-half of that of the Reserve officer. In the event the date an officer last reported for active duty should be prior to July 1, 1938, for purposes of precedence he will be considered as having reported for active duty on that date. Thereafter, officers of the Naval Reserve who are advanced to higher grades while performing active duty other than training duty shall, during the continuance of such duty, take precedence among themselves and with other officers of the Navy in accordance with date of such advancement or promotion.

"H–1504. *Precedence of officers on active duty during war or national emergency.*—(1) When mobilized with the Regular Navy for war or a national emergency, each officer of the Naval Reserve shall take precedence next after that officer of the Regular Navy of the same rank or grade whose

length of service in such rank or grade on the date of the declaration of such national emergency or war is one-half or the nearest one-half of that of the Reserve officer.

"(2) In the event the date a Naval Reserve officer last reported for active duty should be prior to the date upon which such war or national emergency was declared or proclaimed by proper authority, he will be considered as having reported on the later date.

"(3) A Naval Reserve officer appointed after the declaration of the war or national emergency shall take precedence, upon reporting for active duty, next after the officer of the Navy of the same rank or grade whose length of service in such grade or rank on the date the Reserve officer reports for active duty, is one-half or the nearest one-half of that of the Reserve officer.

"(4) When mobilized with the Regular Navy for war or a national emergency, Naval Reserve officers who are advanced to higher grades or ranks subsequent to reporting for active duty, shall during the continuance of such active duty, take precedence among themselves and with other officers of the Navy in accordance with the dates of such advancement or promotion.

"H–1505. *Details of computing precedence.*—(1) In the event the computation of one-half of the Reserve officer's service in grade on date of mobilization as provided for in articles H–1503 and H–1504 gives him a date of precedence identical with the date of rank of an officer or a group of officers of the Regular Navy of the line or staff corps of which he is a member, the Reserve officer takes precedence next after the junior officer of the line or staff corps of the Regular Navy having the same date of rank. If the computation results in a date of precedence for the Reserve officer between the dates of rank of two officers or two groups of officers of the Regular Navy, the following rules shall apply:

"(*a*) If the date for the Reserve officer is exactly midway between two officers or two groups of Regular Navy officers, or above that point, the Reserve officer shall take precedence next after the junior officer immediately preceding.

"(*b*) If the date for the Reserve officer is below the midway point between two officers or two groups of Regular Navy officers, the Reserve officer shall take precedence next after the senior officer next following.

"(2) In case there is no officer of the same rank or grade and corps in the Regular Navy senior in date of rank to the date of precedence of the Reserve officer on mobilization, the Reserve officer shall take precedence next after the senior officer of the Navy in his grade.

"H–10703. *Precedence.*—(1) Officers of class A–V (N) shall be considered to have commenced their commissioned service on the dates upon which their classes completed training as aviation cadets, as determined by the Secretary of the Navy, and shall be assigned dates of rank in their commissions accordingly.

"(2) All aviation cadets who enter upon active duty undergoing training in the same class have the same date of precedence.

"(3) At the time of completion of active duty undergoing training, designation as naval aviator and appointment as ensign, those having the same date of precedence will be assigned relative precedence among themselves based upon their relative standing in flight training."
